The references were cited in an Office Action dated November 11, 2004 received from the European Patent Office. Applicants are submitting a copy of the above-cited reference, together with a copy of the Office Action. The relevance of the above-identified reference has been described in the Office Action. Please note that the four other references cited in the Office Action were previously submitted in an Information Disclosure Statement dated May 23, 2003.

In compliance with the requirements of 37 C.F.R. §1.98(a)(3), as a concise statement of relevance, as it is presently understood by the individual designated in 35 U.S.C. §1.56(c) most knowledgeable about the content of the information, the undersigned attorney of record submits an Official Action by a foreign examiner in which the references were cited. The relevance to the pending U.S. patent application is that the Office Action issued in a foreign patent application on the same subject matter. However, no independent analysis of the Office Action, the accuracy of the statement of the foreign examiner or the claims of the foreign application under the laws of that country or the United States relative to the subject matter claimed in the present application has been made; the present understanding of the contents thereof by the undersigned being based on the foreign examiner's comments submitted herewith.

Inasmuch as this Information Disclosure Statement is being submitted in accordance with the schedule set out in 37 C.F.R. § 1.97(b), no statement or fee is required.

Respectfully submitted,

George Brieger
